After School Math Enrichment 1st - 7th Grade

Hello, the purpose of our afterschool program is to help children improve their knowledge of math. A professional math instructor helps scholars complete their homework and practice the concepts they’re being taught in class, we also provide advanced instruction to those ready to be challenged!

Our Approach

Our approach focuses on teaching concept and procedure using methods and materials appropriate to the scholar. This is done under the guidance of a math instructor who has been offering the program at Archway since it opened in 2011. Scholars taught using this method develop ability and gain confidence. They are the top performers on international testing. I.V. offers small group instruction (4 scholars per group) which allows for individual instruction.

When & Where?

Monday-Friday: register your child for one or two days a week of after school math instruction. 1st - 7th grade (sessions are closed as they fill).

Mon., Tues., Thurs., Fri., (3:00 release)
