

Mad Science at Archway Trivium

The World's Leading Extracurricular STEM Provider

Grades: K – 5th Days: Thursdays

Dates: January 29th through April 23rd (12 class dates)

Skip Dates (no class): March 12th

Times: 3:30 – 4:30

Fantastic Forces introduces concepts in physical chemistry and engineering, then connects them to their applications in real-life. Kids learn about atomic and molecular interactions, forces like gravity and inertia, and how these are used in everything from magic shows to airplane flight to building construction.

Science Surprise offers in-depth explorations of some areas of science most popular and relatable to kids. They will learn how scientists have many kinds of specializations, from insects to weather prediction, and see how much of everyday life involves science.

Includes lessons like:

Che-Mystery

Current Events

Science of Magic

Wacky Waves

Bugs

Earthworks
